How much does a 100 MW battery cost in New Zealand?

New Zealand's Contact Energy has announced plans to build a 100-megawatt (MW) grid-scale battery at Glenbrook, near Auckland, New Zealand, powered by Tesla Megapacks. This project is set to cost up to NZD\$163 million (C\$133 million) and is expected to be operational by the first quarter of 2026.

Where will Tesla build a 100MW battery in New Zealand?

In South Auckland, Contact has a contract with Tesla to build the 100MW battery. The \$163m grid-scale battery will be built in Glenbrook and will be the country's newest large-scale battery, the closest to the largest city, and Tesla's first Megapack 2 XL system in New Zealand.

Does Contact Energy have a 100 MW battery energy storage system?

In announcing the project, Contact Energy said they also had consent to operate and maintain a 100 MW Battery Energy Storage System (BESS) at East Rd (State Highway 45) Stratford. The consent was granted in November 2022.

Will Stratford's Power Station get a 100 megawatt battery project?

Stratford's power station could be next on the list to get a massive 100-megawatt battery project to store excess renewable energy. Yesterday, Contact Energy announced plans to build a \$163 million 100MW battery station in south Auckland that would provide enough electricity to meet peak demand over winter for 44,000 homes for over two hours.

The 100 MW / 200 MWh Ruakaka BESS, located in the Ruakaka Energy Park, 130 kilometres north of Auckland, has enough ...

The 100 MW / 200 MWh Ruakaka BESS, located in the Ruakaka Energy Park, 130 kilometres north of Auckland, has enough output to power around 60,000 average ...

New Zealand's Contact Energy has announced plans to build a 100-megawatt (MW) grid-scale battery at Glenbrook, near Auckland, New Zealand, powered by Tesla Megapacks. ...

Construction and commissioning of the Ruakaka battery energy storage system (BESS) on New Zealand's North Island is complete, with the site expected to reach full ...

This is a list of power stations in New Zealand. The list is not exhaustive - only power stations over 0.5 MW
