A consortium led by Abu Dhabi-based renewables developer Masdar has been awarded the contract for the Ibri III solar independent power project in Oman.

The approved Muscat Energy Storage Project positions Oman at the forefront of Middle Eastern energy innovation, combining cutting-edge battery tech with smart grid solutions.

Oman's Nama Power and Water Procurement (PWP) has signed an agreement with a consortium led by Masdar to build Oman's ...

The Ibri III project will combine a 500 MW solar plant with a 100 MWh battery energy storage system, making it Oman's first utility-scale solar-plus-storage system.

Muscat - Nama Power and Water Procurement (PWP) signed an agreement on Monday with a consortium led by Masdar to ...

Explore how 1MWh containerized energy storage systems enable renewable energy developers to achieve stable, efficient, and scalable power delivery.

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant ...
