This premium low iron glass is designed to enhance the efficiency of solar ...

Dalian Futimes Glass Co., Ltd was established in 2010, focusing on the export and deep processing of photovoltaic coated glass and ultra-thin ...

2mm Tempered Solar Glass has its unique recipe and special pattern, which ensures highest solar transmission by greatly reducing light reflection and ...

Dalian Futimes Glass Co., Ltd was established in 2010, focusing on the export and deep processing of photovoltaic coated glass and ultra-thin physical tempered ...

The future of photovoltaic modules has already shifted to glass - glass modules in 2mm. Modules made with such ultra-clear glass, are far more efficient than traditional PV modules as there is ...

The 2 mm solar glass is not only lighter than the current world standard of 3.2 mm, but also absorbs less solar energy while allowing higher irradiance to reach the solar cell.

Our 2 mm solar glass is exclusively produced in a float glass process. This industrial process adheres to very strict production tolerances and guarantees a very low defect density.

Fully tempered 2 MM solar glass is 2 times stronger than heat-strengthened glass. The glass is safer and stronger than heat-strengthened glass (that leads to larger and sharper pieces when ...
