Are Chinese solar power inverters Rogue?

However, rogue communication devices not listed in product documents have been found in some Chinese solar power inverters by U.S experts who strip down equipment hooked up to grids to check for security issues, the two people said.

How many solar power inverters and batteries are Rogue?

Reuters was unable to determine how many solar power inverters and batteries they have looked at. The rogue components provide additional, undocumented communication channels that could allow firewalls to be circumvented remotely, with potentially catastrophic consequences, the two people said.

Who makes solar charge controllers & inverters?

Solar Charge Controllers With over 4 million products sold in over 100 countries since 1993 -- functioning in some of the most extreme environments & mission-critical applications in the world -- Morningstar Corporation is truly "the leading supplier of solar controllers and inverters."
