Should Tirana have a 5G network?

5G networks should be available to residents in urban and rural areas, at speeds of at least 100 Mbps; Tirana's 5G network should provide 50% of the houses, businesses and public institutions with a mobile broadband service with speeds of at least 1 Gbps. 7. If 5G specific rules are drafted, what do they say?

Is there a 5G auction date?

5G technology is still being tested, and there is no auction date. The Strategy Plan recommends holding online auctions for commercial spectrum licences. The typical structure allows all available licenses to be auctioned simultaneously. There is no set limit of rounds, so the auction ends when there are no new bids.

Will 5G rules be included in the UK's electronic communication law?

The regulator aims to include 5G rules in its primary electronic communication law. Amendments are currently being drafted, and expected to go to public consultation by March 2023. 8.

Where should 5G networks be available?

5G networks should be available in at least one big city, the main transport corridors, strategic economic areas, health and educational institutions, and public open areas; 5G networks should be available to residents in urban and rural areas, at speeds of at least 100 Mbps;
