---

Alcoutim solar plant will be able to store energy in periods of excess production to sell it to the grid when it is most needed, maximizing ...

System integrator Powin has been enlisted by oil, gas and renewable energy firm Galp to install a battery energy storage system (BESS) at a PV plant in Portugal, Powin's first ...

Omexom Portugal is deploying two Battery Energy Storage Systems (BESS), integrated into the Vale de Moura (29 MWp) and Estremoz (52 MWp) photovoltaic power ...

Alcoutim solar plant will be able to store energy in periods of excess production to sell it to the grid when it is most needed, maximizing its value. The battery system, in sunny ...

The batteries will allow Galp to store the solar energy produced in periods of high generation, and to deploy it during periods of high demand, maximizing the energy's value.

StorSystems is driving the Portuguese energy transition by developing, building, and operating advanced battery storage systems.

System integrator Powin has been enlisted by oil, gas and renewable energy firm Galp to install a battery energy storage system ...

Portuguese energy firm Galp and Powin, a US-based energy storage integrator, completed the commissioning and injected the first electrons of stored energy to the grid from ...
