Who is Black Mountain Air?

Black Mountain Air is a full-service HVAC company strategically located right in between the Las Vegas Valley and Henderson, NV. We're nestled nicely between the Strip and Lake Mead. We are a Family Owned and Operated Air Conditioning and Heating Company providing Residential and Commercial HVAC Services by highly trained professionals.

How can Black Mountain Air help you?

Black Mountain Air can help keep your indoors comfortable when the weather outside is sweltering. We can help you with all your HVAC needs. From a brand-new installation to untimely emergency repairs, we can help you achieve ultimate comfort for your house year-round. Check out our website to learn more about our products and services.

Are solar-powered air conditioners sustainable?

When it comes to cooling your space sustainably, solar-powered air conditioners offer a compelling solution. These units harness renewable energy to deliver efficient climate control, making them ideal for eco-conscious consumers. From portable models to those designed for vehicles, there's a variety of options to suit your needs.

How efficient are solar-powered air conditioners?

As you explore options for solar-powered air conditioners, understanding power source efficiency is vital for making an informed decision. These units convert sunlight into electricity, which helps reduce energy costs. Pay close attention to the solar panel's efficiency, typically ranging from 15-22% for polycrystalline and monocrystalline panels.

Our team specializes in AC and heating repairs for both residential and commercial clients.

Schedule a consultation with a local contractor to get started with Mitsubishi Electric Heating & Air Conditioning. Or request service for existing systems.

Solar-powered air conditioners just make sense. After all, you're most likely to use your AC when the sun is beating down on your home. This piece will review the need for solar ...
