Will Brazil conduct the first energy storage auction?

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Will Brazil's first capacity reserve auction affect battery energy storage?

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include battery energy storage systems (BESS) in the second exercise of the year, according to Markus Vlasits, chairman of Brazil's energy storage trade body.

Is there a BESS project in Brazil?

Image: A BESS project in Brazil from ISA CTEEP. The Brazilian Minister of Energy and Mining has unveiled an auction for battery energy storage projects to be held in 2025.

Will Brazil's energy auction improve power grid reliability?

Interest in the auction has been expressed by power companies such as Portugal's EDP and Brazil's ISA Energia. The auction will enhance Brazil's power grid reliability by integrating energy storage solutions for electricity generated from renewable sources such as wind and solar. US Tariffs are shifting - will you react or anticipate?

Matrix Energia has strengthened its position as a leading green company in Brazil's clean energy transition by rolling-out new large-scale battery energy storage systems ...

Brazil is set to conduct the country's first-ever energy storage auction for adding batteries and storage systems to the national power grid.

Changes to Brazil's first capacity reserve auction of 2025 could undermine the expansion of the procurement regime to include ...

Grid operator ISA CTEEP has started commercially operating a large-scale battery energy storage system (BESS) at the Registro substation in the Brazilian state of Sao Paulo.

Brazil's battery storage market is still in its infancy, with only a limited number of projects in operation. However, the country boasts one of the cleanest energy grids globally, ...
