Why do we need energy storage solutions in Bulgaria?

Establish a reliable energy system with greater share of intermittent generation. In the context of Bulgaria's energy landscape, energy storage solutions present a diverse array of benefits to various stakeholders stemming from its unique ability to time-shift energy and rapidly respond when called upon. The applic

Can battery-based energy storage improve peaking capacity in Bulgaria?

Storage can also offer greater flexibility and efficiency in managing the grid. Furthermore, and although hydropower storage already makes up a significant source of peaking capacity in Bulgaria, battery-based energy storage can address peaking needs during times of droughts, meet requirements for more distributed peaking po

How many projects have been submitted to the Bulgarian Ministry of energy?

The Bulgarian Ministry of Energy announced on December 6 that it has received 151 project proposals worth nearly BGN 5 billion, which far exceeded the available funding of BGN 1.154 billion. Of the submitted proposals, 118 projects—totaling BGN 1.6 billion—were shortlisted.

How much will Bulgaria spend on battery storage projects?

Bulgaria will finance 82 standalone battery storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded procurement exercise named RESTORE.

GSL ENERGY will continue to provide local customers with efficient and reliable energy storage solutions, supporting Bulgaria in achieving its energy independence and ...

Storage is hindering Bulgaria in the development of an energy storage market. Furthermore, Bulgaria's energy legislation and grid codes have been historically written with thermal plants ...

This makes Bulgaria one of six European countries with a project listed in the EC's public register of strategic projects and puts the ...

Bulgaria's RESTORE program—funded by the EU's Recovery and Resilience Facility (RRF)—has unlocked 9.7GWh of battery storage capacity across 82 projects, tripling ...

Minister Dilov stated that work is actively underway to improve energy efficiency and security of supply for Bulgarian industry, with particular attention to net zero emission ...

Bulgaria's Ministry of Energy will finance 82 standalone renewable energy storage projects with a combined grant budget of BGN 1.154 billion (~\$675 million) under the EU ...

This makes Bulgaria one of six European countries with a project listed in the EC's public register of strategic projects and puts the country on the world map of energy storage ...

A Bulgarian project for manufacturing batteries for energy storage has been granted strategic status under the European Clean Technology Initiative, the Ministry of Economy and ...
