Are solar innovations ® curtain wall frames custom built?

All Solar Innovations ® curtain wall frames are custom built to meet the exact dimensions of your opening. Solar Innovations ® offers eight standard frame finish colors and unfinished aluminum; custom finish options are available at an additional cost.

What is a solar curtain wall?

Commercial applications are most often designed, engineered, and installed by Solar as storefronts. The curtain wall can be utilized on virtually any type of business. A system can be added to the exterior of your building or utilized for interior divisions between departments or as office walls.

What is a unitized curtain wall system?

Unitized curtain wall systems, assembled and glazed in the shop environment, offer the advantage of faster installation, improved product quality and lower installation costs. Kawneer's curtain wall systems are engineered to meet the highest standards of performance, design and sustainability.

What is a curtain wall system?

A curtain wall system is a protective structure for a building's exterior. It consists of a grid in the facade, also known as the mullion, which determines how the glass fits into the wall. Glass curtain walls allow natural light into buildings, making them more energy efficient.
