Serving residential, commercial, industrial, and government clients across South Africa and African markets with advanced photovoltaic storage and BESS solutions.

MTN Group, operating across Africa, deployed over 1,200 solar hybrid sites by 2023, replacing diesel generators with container PV systems that reduce operational costs by 40-60%.

Competitive pricing from GFG CONTAINER for PV container systems including installation and complete solar solution costs.

PV containers, also known as photovoltaic containers, are innovative solutions designed to integrate solar energy generation into modular and transportable units.

We have developed two different containerized systems: our mobile Solartainer Amali and our scalable Solartainer Kani. An intelligent mini ...

Comprehensive solar container solutions for photovoltaic power generation. Complete plug-and-play systems with solar panels, inverters, and monitoring equipment.

Folding solar containers replace traditional diesel generators with sustainable green solar energy to reduce diesel use, lower emissions, and allow users to cut energy costs while protecting the ...

We have developed two different containerized systems: our mobile Solartainer Amali and our scalable Solartainer Kani. An intelligent mini-grid system distributes electricity by means of a ...
