To prepare the 20-foot shipping container for housing heavy equipment and intricate wiring systems, several modifications were made: Reinforcements were added to ensure the ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Many homeowners install solar and expect backup power automatically. That expectation often comes from mixing up what a solar inverter does and what a solar battery ...

It's essentially a standard 20-ft steel container fitted with fold-out photovoltaic arrays, inverters and batteries. When deployed, the ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

It's essentially a standard 20-ft steel container fitted with fold-out photovoltaic arrays, inverters and batteries. When deployed, the container slides panels out on all sides to ...

Batteries: Equipped with deep-cycle batteries, these containers store excess electricity for use during periods of low sunlight. The battery capacity determines the stored ...

From there I had to get the wiring set up to feed my batteries. Here is where the beauty of the pre-built system really shows. All of the panels are wired for the ...
