---

A high-level delegation from Dubai Electricity and Water Authority (DEWA), led by MD & CEO HE Saeed Mohammed Al Tayer, has visited the People's Republic of China to ...

The United Arab Emirates is building the world's largest solar and battery storage project that will dispatch clean energy 24/7.

Welcome to the United Arab Emirates, where solar energy production has grown faster than a sandstorm in July. But here's the catch - solar energy storage batteries aren't ...

In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin ...

In the UAE, where solar resources are abundant due to its location in the global sunbelt, energy storage is particularly vital to maximize the potential of large-scale solar ...

The project leverages advances in technology, material science and aerodynamics to capture low wind speeds at utility scale, paving the way ...

The project leverages advances in technology, material science and aerodynamics to capture low wind speeds at utility scale, paving the way for further projects.

To achieve these ambitious goals, Dubai is focusing on two major renewable sources: solar and wind energy. While solar power is leading the way, wind energy is beginning to gain traction, ...
