Who developed the EDP project in El Salvador?

Invenergy served as lead developer of the EDP project with the support of El Salvador-based partners Grupo Calleja, VC Energy de Centroamerica and Quantum Energy. To construct the project, Invenergy worked with a consortium of global project partners including BW LNG, BW Offshore, SAAM Towage, Boskalis, Wärtsilä, Elecnor, and Shell.

Why is El Salvador completing EDP?

The completion of EDP is a major uplift in electric reliability and lower emissions through natural gas supply to the Central American region. The project represents the country's largest ever private foreign direct investment and is providing clean and reliable power to meet up to 30% of El Salvador's energy demand.

Who financed El Salvador's infrastructure project?

The more than \$1 billion transformative infrastructure project, the largest-ever private investment in El Salvador, was financed by leading global financial institutions U.S. International Development Finance Corporation, International Finance Corporation, IDB Invest, Finnish Export Credit Ltd and KfW IPEX-Bank.

A standout feature of the Capella project is its integration of a 30 MW/60 MWh Battery Energy Storage System (BESS), which will ...
