---

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan ...

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is ...

Thanks to its high energy density design, eFlex maximizes the energy stored per unit of space, drastically reducing land and construction costs.

Professional 418KWh battery cabinet with liquid cooling system. High integration, superior protection and flexible parallel operation for industrial energy storage.

The Battery Cabinet is an all-in-one energy storage solution featuring LFP (lithium iron phosphate) batteries, liquid-cooling technology, fire suppression, and monitoring systems for safe and ...

The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ...

HyperCube is a liquid-cooling outdoor cabinet suitable for energy storage. It features high safety, a long lifespan, high efficiency, stability, scalability, and rapid response.

Our products increase the efficiency of battery energy storage systems. Thermal management is vital to achieving efficient, durable and safe operation. The choice of the correct solution is ...
