Who makes swemodule solar modules?

Solar Modules produced at SweModule by Renewable Sun Energy Sweden AB are designed for various markets and applications. High quality production, combined with strictest process control, ensure maximum lifespan and the highest performance. Next generation goes of grid. Read about the fully solar-panel driven Villa.

What is a flexible solar panel?

A flexible solar panel with record low weight, adapted for large roof surfaces. The product is sold as a retrofit on your existing roof or as a complete roof replacement. An aesthetic solar panel for standing seam metal and bitumen roofs, installable with new or existing roofs, offering a flexible and sustainable energy solution.

Where are solar modules made?

It's one of the most modern and automated module production facility in Europe Solar Modules produced at SweModule by Renewable Sun Energy Sweden AB are designed for various markets and applications. High quality production, combined with strictest process control, ensure maximum lifespan and the highest performance. Next generation goes of grid.

Where are solar panels made?

The solar panels are manufactured in our own production facility in Jönköping, which is powered by 100% renewable energy. The solar panels do not contain any heavy glass or aluminium element, significantly reducing materials consumption. In addition, the light-absorbent CIGS layer is extremely thin, contributing to a fast production process.

In response to an ever-increasing global desire for clean, efficient and renewable energy sources, SUNGO Energy Technology leads the way providing SUNGO RSD-2 solar ...
