Where are Georgia Power's new battery energy storage systems located?

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Does Georgia Power support Customer-Sited solar?

Georgia Power is also committed to supporting customer-sited generation resources to meet the state's growing energy needs. The 2025 IRP includes two customer expansions of BESS programs including enhancements to the Customer Connected Solar Program and launching a new Customer-Sited Solar Plus Storage Pilot.

What is HL-GA Battery Company?

HL-GA Battery Company will supply next-generation battery technology to manufacturing facilities for production of Hyundai, Kia and Genesis EV models. The new facility will help create a stable supply of batteries in the region and allow for a quick response to the global EV demand.

What does Georgia Power do?

"At Georgia Power, we work with the Georgia PSC and many other stakeholders to make the investments required for a reliable and resilient power grid, integrating new technologies to better serve our customers today and as Georgia grows," said Rick Anderson, senior vice president and senior production officer for Georgia Power.

The system integrates a grid-connected inverter, a lithium iron phosphate battery and an energy management system in a modular, plug-and-play design that is easy to install and use.

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage ...

Explore Georgia's top 21 energy storage companies offering innovative solutions like battery storage and power systems. Featuring Stryten Energy and Hannah Solar.

NYSE-listed firm Freyr has cancelled its plans for a battery manufacturing plant in Georgia, US, following its
