A US\$22.58 million contract was inked on Wednesday for the construction of a 15-megawatt (MW) solar farm in Linden, and when ...

Spanning 13 acres, the advanced facility combines solar generation and energy storage to stabilize power supply on the Essequibo Coast. It captures excess solar energy ...

A US\$22.58 million contract was inked on Wednesday for the construction of a 15-megawatt (MW) solar farm in Linden, and when completed, the mega project will be the ...

Guyana Power and Light (GPL) is advancing clean energy with new solar PV projects and battery storage, set to benefit 70,000 people and reduce costs.

A notable feature of the project is the integration of a state-of-the-art battery energy storage system with a 22-megawatt-hour (MWh) capacity. This will ensure a stable and ...

The off-grid solar project, launched in July 2023, aims to expand renewable energy access in hinterland and riverine communities that are not connected to the electricity grid.

The off-grid solar project, launched in July 2023, aims to expand renewable energy access in hinterland and riverine communities ...

The Program is administered by the Inter-American Development Bank (IDB), and aligns with Guyana's Low Carbon Development Strategy. The initiative emphasizes climate-resilient ...
