Utilizing Tier 1 280Ah LFP battery cells, each BESS is designed for a install friendly plug-and-play commissioning. Each system is constructed in a environmentally controlled container including ...

Today's gold standard for solar containers. Why it's a favorite: This battery is a workhorse. It's very stable, tolerant of high temperatures, ...

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the ...

Today's gold standard for solar containers. Why it's a favorite: This battery is a workhorse. It's very stable, tolerant of high temperatures, and doesn't lose its capacity quickly ...

We combine high energy density batteries, power conversion and control systems in an upgraded shipping container package. Lithium batteries are ...

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and efficient energy release for over 2 hours.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Discover lithium battery containers with IP65 protection, LiFePO4 cells, and 6000+ cycles. Ideal for solar & commercial energy storage. CE certified.
