Is T&T launching a joint-venture battery storage project in Vietnam?

Notably, T&T Group, a major renewable investor with a portfolio of over 2,800MW across wind, solar, and LNG-to-power projects in Vietnam, recently announced a plan to launch joint-venture battery storage products in 2026, aiming to build Vietnam into a manufacturing and technology hub for renewable energy equipment. 5

Why is fire a problem in Vietnam?

In recent years, along with impressive economic development and swift urbanization in Vietnam, the number of fires and explosions has significantly increased, particularly at industrial factories and manufacturing facilities, which has caused many injuries and deaths, as well as substantial property damage.

Do lithium-ion battery energy storage systems cause fires?

The report is a culmination of a two-year research project examining the characteristics of fires resulting from the overheating of lithium-ion battery energy storage systems (ESS) within residential structures.

What are the grid connectivity requirements for power projects in Vietnam?

Connection to the Power Grid: Grid connectivity requirements for power projects in Vietnam are governed by Circular No. 05/2025/TT-BCT, issued by the MOIT. This circular sets out the technical requirements applicable to the electricity transmission and distribution systems.

"Today's workshop has demonstrated the tremendous potential of energy storage systems in supporting a just energy transition, while also outlining concrete steps to turn ...

It is effective, non-conductive, and causes minimal damage to equipment, making it suitable for enclosed energy storage spaces like ...

In Ho Chi Minh City, the fire protection equipment market is still stable. Unlike concerns about the shortage of equipment when implementing Decree 105/2025/ND-CP, ...

In addition to eliminating the causes of fires (such as electrical device/system malfunctions or errors), ensuring compliance with the current regulations on fire prevention ...

It can assist in firefighting, communicate with victims trapped inside, and even carry victims to safety. The robot transports hoses from fire trucks or external pumps to the fire ...
