As one of the leaders in Central America's drive to promote solar energy, there are a variety of options when it comes to solar energy equipment suppliers in Honduras.

Solar pump inverters are a long-term solution to reduce water pump efficiency with low maintenance costs, zero fuel and no electricity bills. This can be especially advantageous in ...

In April 2025, Solartech in collaboration with our Honduras EPC project partner, successfully implemented a 2200W solar water supply system for ...

Solar pump inverters are a long-term solution to reduce water pump efficiency with low maintenance costs, zero fuel and no electricity bills. ...

In April 2025, Solartech in collaboration with our Honduras EPC project partner, successfully implemented a 2200W solar water supply system for a local village, bringing sustainable clean ...

Need a reliable way to pump water in South America's diverse regions? Solar pump inverters might be the solution. Solar pump inverters turn sunlight into power for water ...

In 2015, Solartech PS4000 solar pump domestic water system was successfully installed in Honduras, which shows an example for putting solar energy to use in middle America.

Solar pump inverters are a key component in this setup, converting solar energy into usable electricity to run water pumps efficiently. This article explores how solar pump ...
