On average, a 120-watt solar panel produces about 500-700 watt-hours of power in a day, depending on the number of peak sun ...

A: Solar panels have a maximum (peak) power rating (Pmax) which is higher than typical operating power.

Type of Panels Direction & Angle Efficiency Climate Sunlight Hours Solar panel efficiency, or how well panels convert sunlight into electricity, is the biggest factor determining how much electricity you can generate. The more efficient your panels are at converting sunlight into electricity, the more electricity you can generate for your home with the same amount of sunlight.
