How much does a solar inverter cost?

Our guide to solar inverter costs covers everything you need to know before purchasing your solar panel system. Below we'll cover: The cost of solar inverters varies from $\pounds 500$ - $\pounds 2,000$ for the average property. The price depends on the type (string, micro or hybrid) you choose, the quality of the brand, as well as the size you need.

How much does a string inverter cost?

Most string inverters come with a 5- to 10-year warranty that can be extended for a premium. Considering most solar panels come with a 25-year warranty, it goes without saying that you will at some point have to replace your inverters. The average solar PV inverter replacement cost of a string inverter typically ranges from $\pounds 500$ to $\pounds 1500$.

What are the best solar inverters for UK homes in 2025?

Compare the best solar inverters for UK homes in 2025. Hybrid vs string, Growatt, Sunsink, Fox ESS, and more. Expert support from Evergy included.

How much does a microinverter cost?

Microinverters can cost from $\pounds 20$ to $\pounds 100$ a unit. It can cost around $\pounds 2,500$ for the average solar panel system comprising 14 panels, including installation costs like wiring. You'll face greater upfront costs when creating a system that uses microinverters, and the bill can be quite high if you're planning on a large installation.
