Why is electricity so expensive in Cambodia?

Electricity prices in Cambodia are among the most expensive in the region due to a shortage of integrated high-voltage transmission systems and the high cost of imported diesel fuel. Power in provincial cities is more expensive and less reliable than the supply in Phnom Penh.

How much money does Cambodia need to build a power plant?

The Cambodian government has stated in its PDP that it will need \$9 billion of investment to develop new power plants and expand the national grid, of which \$2.5 billion has been approved between 2022 and 2025. Opportunities exist for power generation and transmission equipment.

How has the energy supply in Cambodia changed over the years?

Total primary energy supply (TPES) increased by 5.8% per year in 2000-2010 and by 8.0% per year in 2010-2019, showing the same trend as that of TFEC. Due to the significant increase in electricity demand, Cambodia rapidly increased its hydropower and coal power generation in 2010-2019.

Is solar energy economically profitable in Cambodia?

Assessments conducted by the UNDP in Cambodia revealed overwhelmingly positive findings. In essence, solar energy is demonstrated to be economically profitable with shorter construction and installation. Chea, Vanyuth. 2023. "Govt subsidises \$150M to stabilise electricity tariffs in 2023." Khmer Times, July 19, 2023. <https://www.khmer.com>
