What is the capacity of a container power generator?

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in soundproof, weatherproof ISO container with a length of 10', 20' or 40'.

What size container do I need for my Generator?

Depending on the asked performance and execution, the generators are mounted in soundproof, weatherproof ISO container with a length of 10', 20' or 40'. If desired, particularly compact container units can be delivered depending on the required power, also in intermediate sizes of 12', 25' or 30' foot container versions.

What is a containerized generator set?

The durable and robust Containerized Series generator sets are ideally suited for independent power producer (IPP), mining, oil and gas, or any project where harsh conditions, challenging environments and the demand for reliable, continuous remote power exist.

How many generators can be used in a container genset?

The container gensets can be powered by engines of following manufacturers: The container built-in control panels are based on the intended use, e.g. manual/stand alone operation, emergency/standby or parallel operation. In parallel mode (GenSet-GenSet), up to 32 generators can be used as 'Power-Plant'.

Multiple power output configurations are available in 50Hz, from 2,000kVA to 2,750kVA (2 MW to 2.75 MW). Fully integrated CentumTMForce containers can protect the generator set from ...

With a robust, rental-ready construction, the 1000 kW (1250 kVA) XQ1140 generator is designed to be easily transported around project sites safely and efficiently.

The WDG825CC container generator set has a 750 kVA (600 kW) power rating and supports silent and open-frame designs to meet a wide range of power needs.

The WDG825CC container generator set has a 750 kVA (600 kW) power rating and supports silent and open-frame designs to meet a wide range ...

The air cooled diesel generator can provide continuous (dual voltage) electrical power to intermodal refrigerated containers. The unit is self contained with an integral 50 U.S. gallon ...
