How do I set up a Wyze base station?

In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Wi-Fi Network. Follow the on-screen steps to finish the setup. Now that your Wyze Base Station is all set up, it's time to add your Wyze Cam Outdoor. Move on to the next article, Wyze Cam Outdoor Setup Guide.

How do I set up a wireless base station?

On your computer select the AirPort network and open the AirPort Utility. Click on AirPort in the toolbar, then Base Station. Select your base station and from the menu choose manual setup. Here you will be able to enter a new password. Click on wireless and choose the encryption method you would like to use for the wireless security.

Can I use Wyze base station on a Wi-Fi Connection?

Once it's set up, you can use Wyze Base Station on a Wi-Fi connection- no need for a router. To do this: In the Wyze app, tap on your Wyze Base Station. Tap on the Settings gear on the top right. Tap Device Info > Change Connection. You'll see one of the following screens: Select your network.

How do I connect my base stations?

Attach the power cables to the base stations, and then plug them each into a power outlet to turn them on. The status lights should be green. Connect the base stations and set the channels. Note: For details on how to get the sync cable, contact customer care.
