---

With a setup integrating 6 MW of solar power and 5 MWh of storage capacity, the project shows how clean energy can be effectively used in the demanding environment of ...

This innovative approach combines solar photovoltaic power generation with smart aquaculture technologies, enhancing land use efficiency, stabilizing water quality, and ...

The event provided a platform for discussing emerging trends and opportunities in the renewable energy sector, with a special focus on ...

The event provided a platform for discussing emerging trends and opportunities in the renewable energy sector, with a special focus on Sigenergy's cutting-edge C& I energy ...

Through integrating AV platforms for offshore aquaculture that support automated aquaculture equipment and intelligent monitoring sensors on floating tube structures, smart ...

Discover how GODE's 12MW/48MWh liquid-cooled ESS solution boosts a 100MW PV floating fishery project in Hubei. Integrated with smart energy management, the project ...

Sigenergy has made significant strides in promoting sustainable practices within the aquaculture industry through its ...

Sigenergy has made significant strides in promoting sustainable practices within the aquaculture industry through its innovative modular solar-storage solution.
