Can I get a tax credit if I install solar?

View real time available incentives by block on the Megawatt Block Dashboard. New York State Tax Credit: Residential building owners who install solar may be eligible for a tax credit for the lesser of 25% of the installed cost of the solar energy system (up to 25 kW on net-metered systems) after the NYSERDA incentive, or \$5,000.

Can I get tax credits for solar in New York?

In addition to incentives and low-interest financing to help you pay for solar, there are additional tax credits available for homeowners that install solar through New York State and the Inflation Reduction Act. You can put money back in your pocket with the following federal and/or New York State tax credits once your project is complete.

What is a solar tax credit?

Also known as the Investment Tax Credit or Residential Clean Energy Credit, this federal incentive allows homeowners to get a tax credit for 30% of the cost of their fully installed solar panel system. Expenses include the materials and labor from your solar installation company.

Are solar panels tax deductible in New York?

In addition to the great rebates and incentives above, New York also offers tax exemptions for solar panel systems. The solar sales tax exemption ensures that you won't have to pay a sales tax on your system, while the solar property tax exemption means you don't need to pay a higher property tax for adding solar panels to your house.

Some of these incentives are tax related and vary from case to case, so you should consult your tax professional to determine your eligibility for tax benefits, and whether any incentives you ...
