The Massai Market in Juba is the place to go for tourist souvenirs - mostly the usual sort of stuff you'd expect in markets in the region and many of the products are from Uganda ...

Juba is the capital of the Republic of South Sudan and also the capital of Jubek State. South Sudan separated from Sudan and became an independent nation on July 9, 2011.

While the cost of solar power generation has decreased significantly over the past decade, the production of high-quality solar photovoltaic glass remains relatively expensive.

A number of local firms are now conducting feasibility studies on the production of solar photovoltaic thin films for local and export markets. The solar energy project encourages too ...

Discover the advancements in ultra-thin solar glass and their benefits for modern photovoltaic systems, including improved efficiency, flexibility, and aesthetic integration, ...

Juba, the capital of South Sudan, isn't exactly a city that oozes charm or luxury, but it's the gateway to a country still finding its feet after decades of conflict.

Juba (joo&#180;b?), city (1993 pop. 114,980), capital and largest city of South Sudan, a port on the White Nile in the southern part of the country. It is the southern terminus of river traffic in South ...

In terms of cost reduction, glass with side 2mm offers the highest potential in respect of reduced material versus increased effort and costs for handling and breakage.
