-----

The country's largest energy storage project, a 50 MW/68 MWh battery storage system, stands as a milestone in balancing grid stability and supporting solar/wind power adoption.

In this direction, this policy brief aims to shed light on the challenges that customers in Kosovo encounter when trying to invest in solar energy.

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

As Kosovo aims for 35% renewable integration by 2027 (up from current 6%), container systems are becoming the glue holding everything together. Hybrid solar+storage projects are popping ...

Unisolar has successfully completed a landmark 7.4 MW solar project in Kosovo, marking a significant milestone in the nation's ongoing ...

They can be installed in remote areas that are not connected to the national grid, making them an ideal solution for off-grid communities, military bases, and disaster-stricken areas.

These self-contained, portable units harness the power of the sun to generate electricity, offering a range of benefits from energy independence to off-grid power solutions.

Unisolar has successfully completed a landmark 7.4 MW solar project in Kosovo, marking a significant milestone in the nation's ongoing transition toward renewable energy.
