Imagine a revolutionary vision of the maritime industry: autonomous, solar-powered container ships that blend cutting-edge engineering with environmental stewardship. ...

Shenzhen Kongfar Technology provides solar-powered marine power systems for cargo ship cabins in China, replacing diesel generators with clean LiFePO4 solar energy kits ...

In a groundbreaking shift towards sustainable maritime transport, the Blue Marlin debuts as the world's first inland vessel to harness solar power directly for propulsion, setting a ...

The ship, developed and launched by Dutch solar company Wattlab and German inland shipper HGK Shipping, debuted in July, according to Interesting Engineering. It is the ...

The inland shipping sector has reached a significant milestone with the launch of the Blue Marlin, the world's first cargo vessel capable of using solar power directly for propulsion.

Dutch solar innovator Wattlab and German inland shipping giant HGK Shipping have teamed up to launch the world's first hybrid solar-powered inland vessel as part of an ...

Dutch solar technology company Wattlab and Germany's HGK Shipping have unveiled the Blue Marlin, the world's first hybrid solar-powered inland cargo vessel.

Built by a consortium of European maritime engineers and green tech innovators, the hybrid cargo vessel--named "Solaris Voyager" --marks a milestone in the journey toward ...
