View our selection of products from reputable local and international suppliers. Discover the pinnacle of energy-efficient cooling with our state-of-the-art solar air conditioner. Engineered ...

The PIEMM will boost solar energy production and provide access to electricity for more than two million people in Mauritania and Mali, while also enhancing regional integration and trade.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Bluesun completes a large-scale 806 kWp + 125 kW×6 on-grid solar system in Mauritania, driving sustainable development, reducing carbon emissions, and promoting clean energy solutions.

We have developed two different containerized systems: our mobile Solartainer Amali and our scalable Solartainer Kani. An intelligent mini ...

Emerging markets in Africa and Latin America are adopting mobile container solutions for rapid electrification, with typical payback periods of 3-5 years. Major projects now deploy clusters of ...

Our floating solar systems offers an efficient and environmentally friendly solution to your energy needs. Our system is compatible with standard photovoltaic modules and it is also suitable for ...

Featuring an impressive 160 megawatts (MW) of solar power, 60 MW of wind energy, and a robust 370 megawatt-hours (MWh) battery storage, this project is not just a ...
