Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Why should Morocco invest in lithium & electric batteries?

Thanks to its natural resources, advantageous geographical position and strategic partnerships with global players, Morocco aims to become a regional hub for sustainable technologies for Africa and Europe by investing heavily in the lithium and electric battery industry.

What's going on with EV batteries in Morocco?

The battery industry chain centered around LFP is forming rapidly. In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries.

What will Morocco's OCP do with LFP batteries?

The strong outlook for LFP batteries is encouraging Morocco's OCP to move quickly. From producing zero tons of battery-grade material in 2021, the group aims to deliver 30,000 tons of intermediate products for LFP batteries by 2027. To support this ambition, OCP's innovation arm, InnovX, announced a major new initiative in 2024: Mera Batteries.

With the opening of a first production unit for lithium-ion battery materials in Jorf Lasfar, COBCO has begun the creation of a strategic industrial ecosystem in Morocco ...

The OCP Group, a leader in the phosphate industry, has launched Mera Batteries, a 100% Moroccan subsidiary dedicated to the production of LFP (Lithium-Iron-Phosphate) batteries.

On June 25, 2025, COBCO officially inaugurated the first phase of its cutting-edge integrated industrial complex for nickel-manganese-cobalt (NMC) ...

To address this, Morocco is resolutely focusing on lithium iron phosphate (LFP) batteries, a reliable, durable technology suited to local constraints. This choice is part of a ...

Morocco's abundant phosphate deposits position the nation as a pivotal player in the worldwide battery supply
