Discover SunFrame's curtain wall projects -- from hidden and exposed frame curtain walls to unitized systems and Mashrabiya designs. Architecture shaped by light, material, and detail.

Oct 1, 2021 &#183; This paper presents the design, development and experimental testing of a Building Integrated Photovoltaic/Thermal (BIPV/T) curtain wall prototype.

Comprising crystalline silicon photovoltaic glass, the installation boasts a peak power output of 27.20 KWp and features a transparency degree exceeding 40%. The photovoltaic glass ...

With years of expertise in the glass and aluminium industry, we specialize in delivering innovative, energy-efficient, and aesthetically pleasing curtain wall systems for commercial and residential ...

Discover how glass facades in Nairobi, Kenya are redefining corporate architecture through beauty, efficiency, and sustainable curtain wall systems.

Microsoft Africa Development Center (ADC) is now enjoying our solar crystalline silicon PV glass that was installed in the canopy of the building's...

Our edge-to-edge photovoltaic glass is available in amorphous silicon or crystalline silicon, allowing you to align your choice with design preferences, energy goals, and daylight ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...
