Two large storage projects under discussion in Nepal are the 1,200 MW Budhi Gandaki Storage Hydropower Project with capacity of generating 3,383 GWh of energy ...

This groundbreaking project will replace polluting diesel generators with a large-scale battery storage system powered by solar energy.

Gham Power, in partnership with Practical Action and Swanbarton, has secured a project from UNIDO to install a 4 MWh energy storage system in Nepal, one of the largest in the country.

The 146MW Tanahu project isn't your grandpa's pumped storage. Its AI-powered turbines predict rainfall patterns using Himalayan glacier melt data, achieving 89% round-trip efficiency.

Facts and information about Nepal, including its history, people, geography, economy, and more.

Representing Nepal at the launch were Nepali Ambassador Bharat Kumar Regmi, Gham Power CEO Anjal Niraula, and teams from Swanbarton and Practical Action. This ...

Provides an overview of Nepal, including key dates and facts about this Himalayan country.

This pioneering project is set to transform industrial energy use by replacing polluting diesel generators with a large-scale battery storage system powered by solar energy.
