How does North Korea maintain stability and control?

To maintain stability and control, the state retains a pervasive internal security apparatus consisting of multiple agencies and departments with overlapping areas of responsibility and broad powers to monitor all North Korean citizens for criminal and subversive behavior.

Are North Korea's military bases underground?

"Hidden Army Most of North Korea's Military Bases are Underground and in Mountains - Making Any Strike Much Harder." The Sun, 17 April 2017, pp. 1-2, [https://www.theguardian.com/news/2017/apr/17/north-korea-military-bases-underground-and-in-mountains-making-any-strike-much-harder/](https://www.theguardian.com/news/2017/apr/17/north-korea-military-bases-underground). Accessed 12 July 2017. 117 Kwan, Lee Kyo.

What MRBM is Pyongyang developing?

Pyongyang is developing a solid-propellant MRBM known as the Pukguksong-2, a land-based version of the developmental Puk-guksong-1 SLBM. This is the largest known solid-propellant system produced by North Korea.

Does North Korea have a power shortage?

North Korea suffers from chronic energy shortages. Rolling blackouts are common, even in the nation's capital, while some of the poorest citizens receive state-provided electricity only once a year.

North Korea suffers from chronic energy shortages. Rolling blackouts are common, even in the nation's capital, while some of the poorest citizens ...

Since last year, North Korea has been doing maintenance work on power plant facilities to solve severe power shortages.

North Korea suffers from chronic energy shortages. Rolling blackouts are common, even in the nation's capital, while some of the poorest citizens receive state-provided electricity only once...

North Korea faces significant energy shortages primarily due to its reliance on coal and hydroelectric power, which have become increasingly inefficient and inadequate to meet the ...

This paper applies the survival analysis to the actual unit level power generation data in Korea to estimate the relationship between facility reliability and the preventive maintenance.
