Is a 5G spectrum auction a success in Paraguay?

The U.S. Embassy in Paraguay has welcomed the country's recent 5G spectrum auction, calling it a success despite limited participation and criticism over its restrictive terms. The U.S. mission praised the process for aligning with Washington's stance on banning Chinese technology from critical telecom infrastructure.

How much does a 5G base station cost?

Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

How much does 5G infrastructure cost?

The total cost of 5G infrastructure is staggering, with projections estimating that telecom companies will spend over \$2 trillion globally by 2030. This includes investments in spectrum, network densification, fiber backhaul, energy-efficient infrastructure, and emerging technologies such as AI and automation.

How many MHz does nubicom have in Paraguay?

Paraguay's National Telecommunications Commission (Conatel) confirmed that Claro and Argentina's Nubicom will each receive 200 MHz in the 3.5 GHz band after submitting the only bids in the country's 5G auction. Claro will operate in the 3.5-3.7 GHz range, while Nubicom secured 3.3-3.5 GHz. Both allocations are split into four 50 MHz sub-bands.

Among them, the most prominent ones are: the crazy power consumption of the base station and the high cost of the package have aroused widespread concern. Will these problems cause ...
