Xiamen Hema Energy Co., Ltd Solar Panel Series 390W 72Cell Bifacial Mono PERC Double Glass Module. Detailed profile including pictures, certification details and manufacturer PDF.

Bifacial mono PERC double-glass modules represent a significant advancement in photovoltaic technology, combining the advantages of high-efficiency mono-crystalline PERC ...

Double glass module: the front and back two pieces of glass + photovoltaic cells are compounded by encapsulation film. Traditional double glass module package: EVA+EVA, EVA+POE, ...

These double-glass modules assembled with bifacial PERCIUM cells have capability of converting lights incident on their rear side into electricity on top of is being generated by the front side, ...

Our PV modules are designed with better technology in mind, made from robust product components, under stringent quality control steps and high-tech manufacturing processes.

Jingao double-sided double-glass components combined with high-efficiency PERC double-sided battery technology and double-glass assembly structure can not only absorb energy from the ...

The dual-glass structure effectively reduces the risk of cell cracking and improves the weatherability of the module. Al frame improves mechanical ...

The glass is made of 3.2 mm tempered glass or 2.5 mm heat-strengthened glass for GB and DG minimodules, respectively. Detailed specifications and quantities for the minimodules under ...
