This guide ranks the city's top providers, analyzes market trends, and explains how to choose systems that maximize solar efficiency while reducing energy bills.

We focus on the sale, manufacture and installation of heat pumps, solar systems, photovoltaic power plants and underfloor heating for family homes and commercial buildings.

Onyx Solar has completed the installation of a photovoltaic canopy using advanced crystalline silicon technology at a private residence in Prague, Czech Republic.

This article presents three of the most important PV-installers from Prague, Czech Republic and gives information on their focus area.

In recent weeks, the Czech Republic has witnessed an unprecedented drop in the prices of photovoltaic power plants, creating an opportune environment for households.

Solar panels in Prague The Czech Republic had almost two gigawatts (GW) of photovoltaic capacity at the end of 2010, but installed less than 10 megawatts (MW) in 2011 due to the feed ...

The Czech Republic had almost two gigawatts (GW) of photovoltaic capacity at the end of 2010, but installed less than 10 megawatts (MW) in 2011 due to the feed-in tariff being reduced by 25%, after installing almost 1,500 MW the year before. Installations increased to 109 MW in 2012. In 2014, no new installations were reported.
