Will Saudi Arabia have energy storage projects in 2025?

According to Saudi Arabia's plans, the installed capacity of energy storage will show a rapid growth trend. In the short term, Saudi Arabia plans to have 8GWh of energy storage projects in operation by 2025, and this figure will increase to 22GWh by 2026.

Why is Riyadh undergoing rapid urbanization?

Riyadh, the Kingdom's capital, is undergoing rapid urbanization, with projects like the Riyadh Metro and King Abdullah Financial District driving energy demand. In January 2025, Saudi Arabia connected its largest BESS, a 2 GWh system, to the grid, significantly enhancing Riyadh's energy infrastructure.

How did EPC work in Riyadh?

The EPC works on the project were carried out by a consortium between State Grid Corporation of China and Riyadh-based developer Alfano Projects. The facility's deployment in the harsh desert environment posed substantial challenges, including extreme temperatures and frequent sandstorms.

What does SEC do in Riyadh?

Grid-Scale Deployment: The Saudi Electricity Company (SEC) awarded contracts for 2,500 MW/10,000 MWh of BESS capacity, with a significant portion allocated to Riyadh. This supports the city's growing population and industrial needs. **Peak Load Management:** Riyadh's hot climate spikes cooling demands.
