Building the dense network of base stations, fiber backhaul, and small-cell systems required for full 5G coverage is capital-intensive, particularly outside major cities.

For comprehensive 5G coverage in Serbia, approximately 6,000 base stations are estimated to be needed. The business community has long advocated for a 5G auction, with ...

We are already installing base stations on a large scale, which are completely ready for 5G, and as soon as we get the frequency, we will release it first in the biggest cities, and ...

Serbia, 14 November 2025 - The Regulatory Authority for Electronic Communications and Postal Services (RATEL) has completed the auction of 5G radio ...

Operators in Serbia with over 1.5 million users and annual revenues above EUR300 million are eligible to participate in the ongoing 5G frequency auction, running until October 20.

Serbia has formally launched its long-anticipated 5G spectrum auction. The Regulatory Authority for Electronic Communications and Postal Services (RATEL) has initiated ...

The deployment of the 5G network will commence in 2026, aiming to cover 10% of the country by that year. By 2027, 40% of Serbia's territory is expected to have 5G coverage.
