The STREAM consortium met in Slovenia between the 2nd and the 3rd of December for its 7th General Meeting, bringing together partners from across Europe for two ...

As part of the increase of the volume of systemic services, envisaged in the first phase is the installation of an energy storage facility of the size class of 6 to 10 MW. The installation is ...

Ever wondered how a country smaller than New Jersey is becoming Europe's hidden powerhouse in energy innovation? Let's talk about Slovenia power storage--a topic ...

Kozjak Pumped-Storage Hydro Plant
Pumped-Storage Hydro Plants in The Drava Basin
Li-Ion Storage Facility For Primary Regulation
The project of the Kozjak na Dravi pumped-storage hydro plant and the 400 kV overhead power line connection to the Maribor electrical substation has been sited with the relevant national spatial plan. The project is included in the "Development plan for the transmission system of the Republic of Slovenia from 2017 to 2026" and is also included, with... See more on dem.si.
