A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather-resistant shell. Our systems can be deployed ...

Our comprehensive selection of off-grid power inverters, solar products, customized solar kits and batteries provide reliable power anywhere you need it. We can customize a kit for you OR you ...

Pair it with the 6000XP inverter (6kW, 8kW PV) for mid-sized systems, or the 12000XP inverter (12kW, 24kW PV) for larger setups. Together, the kits deliver complete off-grid power for ...

It combines solar PV, battery storage, inverters, and energy management in a rugged container. Ideal for autonomous energy supply wherever grid access is unavailable or undesired.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Designed for solar power plants, this innovative solution combines advanced Lithium battery storage technology with a high-performance 500kW Hybrid Inverter. Featuring a modular and ...

Namkoo's containerized battery energy storage solution is a complete, self-contained battery solution for utility-scale energy storage. It puts batteries, A/C, UPS, inverter and auxiliary ...

Solar energy containers encapsulate cutting-edge technology designed to capture and convert sunlight into usable electricity, particularly in remote or off-grid locations. ...
