Over the years, Channing has completed thousands of container modification projects for clients in virtually every major industry. Learn how to do things the right way from the Pro.

A Higher Wire system includes solar panels, a lithium iron phosphate battery, an inverter--all housed within a durable, weather-resistant shell. Our systems can be deployed ...

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Each solar-powered shipping container generator is transportable, securable, and can be fully customized to your specific needs, including hybrid and microgrid compatibility.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...
