Why should you use an uninterruptible power supply?

You'll be glad for your uninterruptible power supply UPS the next time your typical power source fails during bad weather or due to an over-extended grid. You'll also be grateful when it saves your electronics from the bad effects of power surges, which can damage all kinds of electronics, including monitors and televisions.

Does uninterruptible power supply USP provide surge protection?

Many models of uninterruptible power supply USP also provide surge protection. A surge protector blocks spikes in voltage so that they do not harm your electronics. So, your battery backup is always at work, protecting your desktop computer, network equipment, or other electronic equipment and charging its battery when not in use.
