October 06, Colombo (LNW): The Ceylon Electricity Board (CEB) has officially called for tenders to develop 200MW/200MWh of battery energy storage systems (BESS), as part of its broader ...

Issuing a statement, the CEB said this groundbreaking 600 MW project will store excess renewable energy from solar and wind ...

Sri Lanka's ambitious plan to roll out large-scale battery energy storage systems (BESS) has hit a slight delay, with the state-owned Ceylon Electricity Board (CEB) extending ...

The CEB plans to install 10MW/40MWh battery systems in 10 locations indicating storage of 640MWh. The batteries can smoothen intermittent supply from renewable energy ...

CEB and LECO will be the project's implementation agencies, with a specific project management unit (PMU) appointed to implement ...

October 06, Colombo (LNW): The Ceylon Electricity Board (CEB) has officially called for tenders to develop 200MW/200MWh of battery energy ...

Sri Lanka's energy woes hit a surreal low on February 9, 2025, when a monkey intruded into a substation in Panadura, south of Colombo, triggering an island-wide blackout ...

New transmission lines and substation will be added to the 220kV and 132kV transmission infrastructure and a 100MW/50MWh BESS will be connected to the transmission ...
