Our integrated circuits and reference designs for three-phase uninterruptable power supplies (UPS) help you design reliable and robust hardware with very low input and output total ...

Product description Supply DC loads reliably and save space with the TRIO uninterruptible power supplies. An input grid is no longer necessary for ...

Product description Supply DC loads reliably and save space with the TRIO uninterruptible power supplies. An input grid is no longer necessary for startup. Connected industrial PCs can be ...

Three-input and three-output pure online double conversion products, support 380/400/415V, 50/60Hz power grid system, provide the best power supply quality and load protection.

A Three-Input Three-Output (3:3) UPS offers three-phase AC input and output (380V). With complex topology, it receives 380V three-phase power, rectifies to DC, and ...

SCU manufactures three phase standalone UPS (uninterruptible power supply) and UPS system for communication and data centers.

The Eaton 9395 UPS family (consisting of the Eaton 9395XC, Power Xpert 9395C UPS, Power Xpert 9395P High Performance UPS, and the Power Xpert 9395 UPS) is an industry-leading ...

The CNKHZ power frequency uninterruptible power supply is a new generation of industrial grade digital UPS power supply, which uses reliable DSP digital signal processors and IGBT space ...
