Why should Timor-Leste invest in solar & storage infrastructure?

Jos&#233; added: "The investment in Timor-Leste's solar and storage infrastructure is transformative. It will help reduce dependence on fossil fuels while improving grid stability and energy access across the country".

Jos&#233; de Ponte was supported by special counsel Marnie Calli, senior associate Lisa Huynh and solicitor Jeraldine Mow.

Why did DLA Piper advise Eletricidade de Timor-Leste?

DLA Piper advised Eletricidade de Timor-Leste on its first utility-scale solar PV and battery storage project with a 100MW capacity, marking a major milestone in the country's renewable energy transition.

Does Timor-Leste rely on diesel fuel?

Project's partner in DLA Piper's Finance practice Jos&#233; de Ponte commented: "Timor-Leste has long relied on diesel fuel to power its grid, placing a significant financial burden on the state and end users."

Does Timor-Leste provide backstop guarantee for EDTL obligations?

For the Solar IPP project, Government of Timor-Leste represented by the Ministry of Finance has provided backstop guarantee for EDTL obligations under the Implementation Agreement. Special Investment Agreement, if concluded could allow the winning bidder a leasing of the Site at a concessional rate and other benefits.

Modern energy storage batteries in Timor-Leste leverage lithium-ion advancements with adaptive Battery Management Systems (BMS). Take the 2023 Solar+Storage project in Dili as an ...

DLA Piper advised Eletricidade de Timor-Leste on its first utility-scale solar PV and battery storage project with a 100MW capacity, ...

DLA Piper advised Eletricidade de Timor-Leste on a PPA to develop Timor-Leste's first solar PV power plant and battery energy storage system.

Battery ensures Solar can operate without destabilising the grid by providing voltage and frequency regulations at much lower cost. Battery also backs-up diesel generators at night, ...

Discover how lithium battery energy storage systems are transforming Timor-Leste's renewable energy landscape, reducing reliance on fossil fuels, and creating reliable power solutions for ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Entura's renewable energy and storage experts are proud to see the impacts of their advisory services, with Timor-Leste reaching commercial closure of the solar and battery project in 2025.

The landmark project includes drafting and negotiating a power purchase agreement (PPA) and an implementation agreement with the Ministry of Finance, marking a significant step in Timor ...
