How to ship un3480 lithium ion batteries?

There are regulations put in place for the proper shipping of UN3480 lithium ion batteries as they can be dangerous and hazardous if transported improperly. The transportation methods of lithium-ion batteries include air transportation, water transportation, and land transportation.

What is a un3480 battery?

UN3480 batteries are lithium-ion cells not contained in equipment. They store electrical energy with high energy density and lightweight design, making them ideal for portable electronics and EVs. Redway Power manufactures UN3480-compliant batteries with strict adherence to ISO 9001:2015 standards for safety and reliability.

What are the packing instructions for un3480 & un3481 batteries?

UN3480 is subject to the packing instructions of PI965, and UN3481 is subject to the packing instructions of PI966 (packaged with the equipment) or PI967 (lithium batteries installed in the equipment). For lithium-ion batteries, the watt-hour rating exceeds 20W·h, and for lithium-ion battery packs, the watt-hour rating exceeds 100W·h.

What is un3480 & why does it matter?

UN3480 isn't just a random number - it's your golden ticket to legally transport lithium-ion batteries by air. Here's what makes these regulations tick: Remember the 2019 Amazon warehouse fire caused by mislabeled batteries? Or Tesla's \$134k FAA fine for improper air shipments? These cautionary tales highlight why UN3480 compliance matters.

Since UN3480 lithium ion batteries are shipped as standalone batteries, they can be used for a wide array of applications. On reaching their destination, these batteries can be used with ...

That's essentially what shipping lithium ion batteries UN3480 feels like for supply chain professionals. These power-packed energy sources fuel everything from smartphones to ...

These instructions have been specifically prepared for the shipment of lithium ion batteries (≤ 100 Wh), UN3480; Amendment 42-24, IMDG Code (voluntary application January 1, 2025; ...

UN3480 batteries are lithium-ion cells not contained in ...

Since UN3480 lithium ion batteries are shipped as standalone batteries, they can be used for a wide array of

applications. ...

Learn the essential regulations for shipping lithium-ion batteries (UN3480 & UN3481) to ensure safety and compliance in your logistics ...

Lithium battery shipping requires strict compliance with international hazardous materials regulations due to potential safety risks. This 2024 guide covers essential requirements for ...

Lithium battery shipping requires strict compliance with international hazardous materials regulations due to potential safety risks. This 2024 ...
