What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest. Panels lay flat on the ground.

Who is solarcont GmbH?

SolarCont GmbH was created through a cooperation between the two successful companies Hilber Solar GmbH from beautiful Tyrol and the company Gföllner Fahrzeugbau und Containertechnik GmbH, which is deeply rooted in Upper Austria. This cooperation makes it possible to develop a completely new type of mobile solar system.

What is a solarfold photovoltaic container?

The Solarfold photovoltaic container can be used anywhere and is characterized by its flexible and lightweight substructure. The semi-automatic electric drive brings the mobile photovoltaic system over a length of almost 130 meters quickly and without effort into operation in a very short time.

How many households can a solar Container Supply?

Based on an average power consumption of a 4-person household of 4000 kWh per year and a location in Southern Germany, the solar container can supply approx. 32 households with climate-friendly electricity. At a location in Southern Europe it can even be up to 50 households due to the high solar radiation.

ConSOL is a mobile, solar-powered generator. It runs on PV panels that extend from its container's roof. Energy is stored in Lithium or Gel ...

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

ConSOL is a mobile, solar-powered generator. It runs on PV panels that extend from its container's roof. Energy is stored in Lithium or Gel batteries. As a self-contained, self ...

The company specializes in containerized photovoltaic systems, such as plug-and-play solar containers and trailer-based mobile units, equipped with integrated inverters, battery storage, ...

Western CO. is the Italian leader in the photovoltaic market: PV systems, storage systems, charge controllers.

Photovoltaic systems with storage.

The innovative and mobile solar container contains 200 photovoltaic modules with a maximum nominal output of 134 kWp and, thanks to the lightweight ...

Schneider Electric: Offers integrated energy management solutions with robust solar container options.
Siemens: Provides scalable, smart solar container systems with ...

Our pioneering and environmentally friendly solar systems: Folded solar panels in a container frame with corresponding standard dimensions, ...
